

# Do you know HOW THIS WORKS?

1,100 Direct Relief clinic and health-center partners receive offers that include medicine, medical products, and supplies available to them free of charge.

**HERE'S HOW >>**

>> All products are donated by pharmaceutical companies and screened for appropriateness and quality.

>> Partners receive an email when free products are available and login to the Direct Relief Network to place a request.

[Network.DirectRelief.org](http://Network.DirectRelief.org)

>> Direct Relief pharmacists review all product requests and adjust as necessary based on the availability of requested products and the information you have provided about your health facility.

>> Products are delivered to you courtesy of FedEx so your facility does not incur any shipping expenses.

>> Sometimes, Direct Relief asks questions related to a specific product or to gain more information about your facility. It is important to answer these questions as accurately as possible – your response helps Direct Relief determine what you will receive.

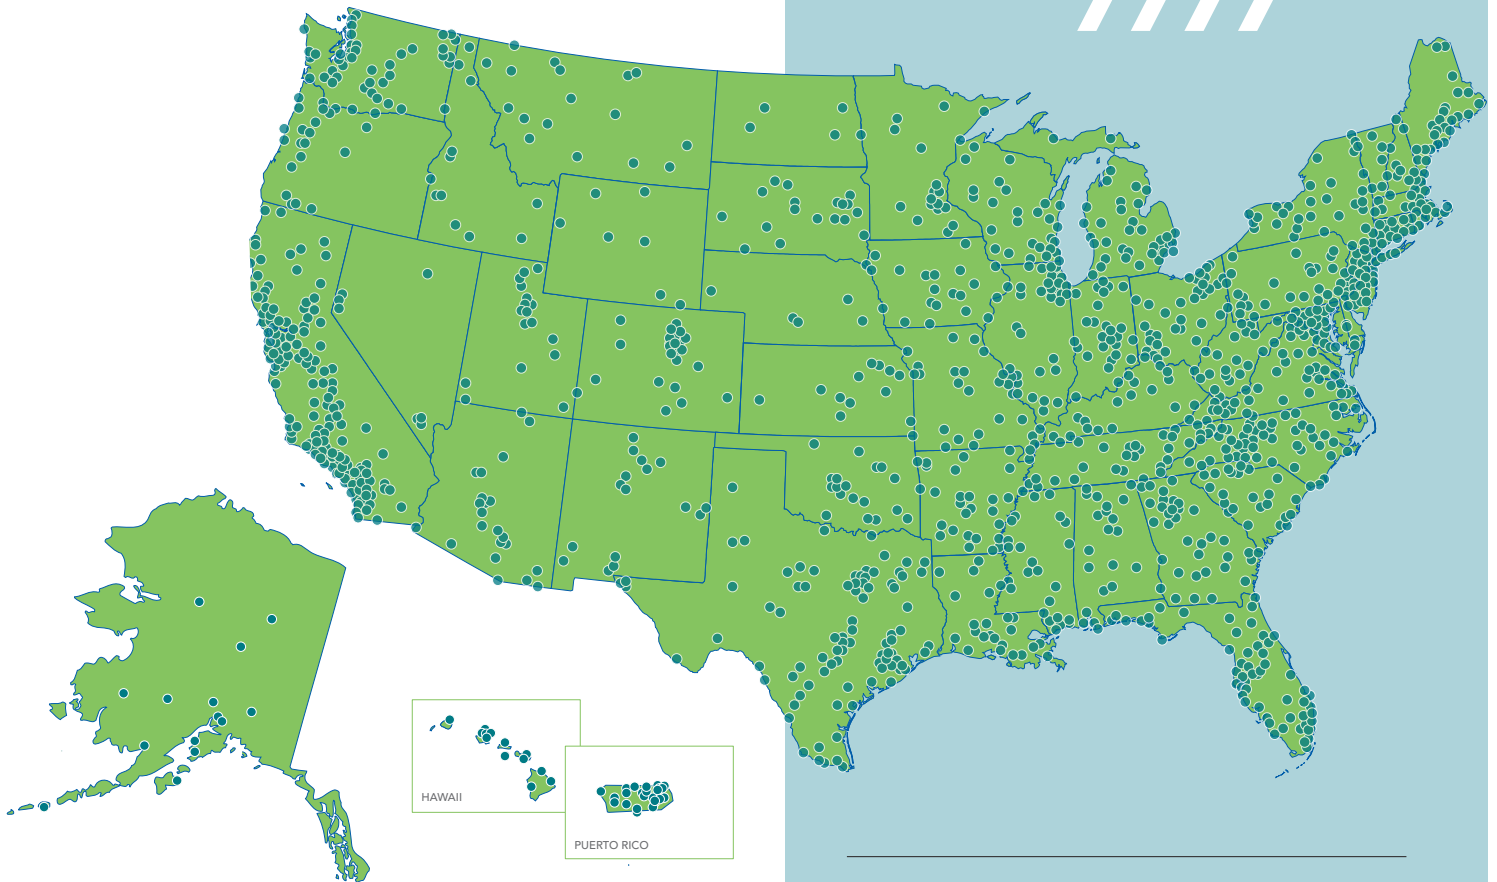

## NOTE REGARDING RETURNS

All expired or overstocked products donated by Direct Relief must be returned to Direct Relief for disposal. Visit [Network.DirectRelief.org](http://Network.DirectRelief.org) to download a Return Authorization Form available from the homepage.

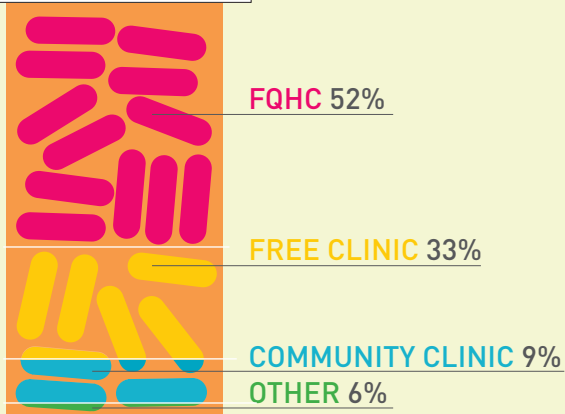

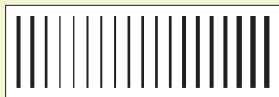

**AND YOU'RE NOT THE ONLY ONE >>**

# 1,100 Health Centers and Clinics Like Yours

Direct Relief supports nonprofit community health centers and clinics that provide care to underserved and uninsured patients regardless of their ability to pay. Direct Relief's network of over 1,100 partners include FQHCs, free clinics, community clinics, Public Health Departments, and other agencies supporting those in need.
